Dear Jon Saunders,

RE:APPLICATION FOR SOFTWARE DEVELOPMENT INTERNSHIP

My name is Sarah Sindet, a Software Developer . I am writing to express my interest in a Software Development Internship at SunCulture.

I am currently working on a reward system that leverages blockchain technology to ensure a streamlined reward process in Institutions.

I was intrigued by how SunCulture is innovating solar powered agricultural solutions for smallholder farmers using mobile technology as well as cloud-based machine learning and solar energy. As a machine learning enthusiast, I am fascinated by the impact SunCulture has had in the solar sector. Working as part of the engineering team at SunCulture would give me the opportunity to learn and gain skills that would propel my career.

Thank you for your time and consideration. I look forward to hearing from you soon.

Sincerely,
Sarah Sindet.
